

This is a companion document for the Germantown Municipal School District Parent/Guardian & Student Acceptable Use Policy.

Each student is responsible for his/her actions and activities involving Germantown Municipal School District's computers, networks and Internet services, and for his/her computer files, passwords and accounts. These rules provide general guidance concerning the use of computers and examples of prohibited uses. The rules do not attempt to describe every possible prohibited activity by students or recourse. Students, parents and school staff who have questions about whether a particular activity is prohibited are encouraged to contact the principal or assistant principal.

Student use of Germantown Municipal School District's computers, networks and Internet services is a privilege, not a right. Compliance with policies and rules concerning computer use is mandatory. Students who violate these policies and rules may have their computer privileges limited, suspended or revoked. Such violations may also result in disciplinary action, referral to law enforcement and/or legal action. The principal or assistant principal shall have the final authority to decide whether a student's privileges will be limited, suspended, or revoked based upon the circumstances of the particular case, the student's prior disciplinary record, and any other pertinent factors.

Level 1: Infraction

- Unauthorized or inappropriate use of technology equipment
- Cheating or any activity that may be disruptive to the school environment
